***Response to Amendment***

1. In response to the Office Action mailed 08 March 2007, applicant submitted a response filed 10 September 2007, in which the applicant amended claims 1, 3, 5-6, 8-11 and 13-14 without adding new matter. Claims 2, 4 and 12 have been cancelled.

***Allowable Subject Matter***

2. Claims 1, 3, 5-11 and 13-14 are allowed. The following is an examiner's statement of reasons for allowance: The relevant prior art of record (i.e. **Wu, Fujii, and Sadri**) teaches or reasonably suggests all of the claimed limitations, but does not teach or reasonably suggest an analyzer that searches frames in the overlapping sections of a present divided data and the following divided data encoded by the encoder, in which a beginning point of the encoded audio data written into the frame in the present divided data and a beginning point of the same encoded audio data written into the frame in the following divided data are closest in positions but not overlapped; or a management device that watches operation statuses of the plurality of processors and when a free processor executing no process is found, controls the free processor to execute the encoding process of the divided data.

Further, the examiner asserts that applicant's Remarks regarding the claimed amended subject matter exemplifies the reasoning behind key differences that would fail to allow the prior art to adequately teach over applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
